

Vanguard Social Media

Dr. Lucas Murrey

10 November 2024

The potential of the Internet has been hijacked by an evil power. Google, Microsoft, Facebook, Instagram, Youtube, Twitter, Tiktok, Weibo, RED, Apple and other such platforms are servants of evil. This is clear in their censorship and shadow-banning that violates our right to free speech. We see this in the erratic results of views across these criminal platforms:

We see this also in Google “accidentally” failing to fix edits to allow peoples’ websites to be indexed to keep people isolated from one another.

For these reasons, I will be providing updates in the coming days and weeks about a new messaging app through which we can more reliably communicate. But for now, I would like to ask who is it who controls Google, Microsoft, Facebook, Instagram, Twitter and other such criminal platforms and apps?

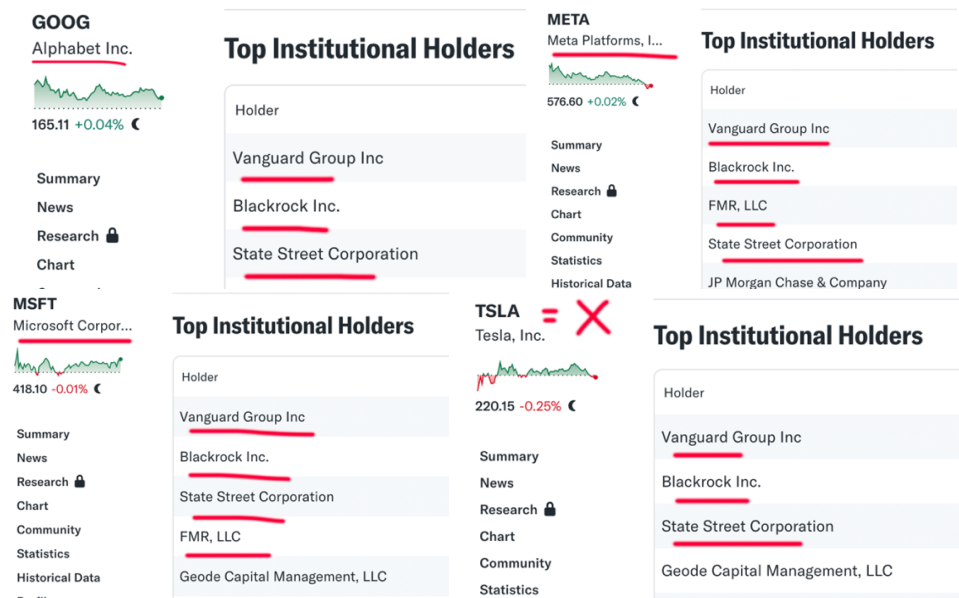

The Banality of Bad Aliens?

For some the evil that is destroying the Internet with said mafia platforms and apps represents a species of bad aliens. This is in contrast to good aliens who allegedly also have been seeded on earth, like us humans.

To be clear the issue of aliens is one from which I shy away. This is because of a frustration I suffer in regard to this issue. In my experience people who embrace the idea that there are aliens who secretly co-exist among us fail to confront the alien-psyop of the American government. In the 1980s United States spy agencies created a fake conspiracy that there had been a cover-up regarding alien star-ships that had visited earth. They deceived the people to hide new weapons technology.

Nevertheless, because we need to explore the identity of the evil that harms the Internet I am willing to entertain any and all reasonable explanations. And in this brief discussion we have already made some progress. Whoever is behind criminal platforms and apps like Google, Microsoft, Facebook, Instagram, Youtube, Twitter, etc. is the same evil power that hides behind Vanguard.

But who is the evil power behind Vanguard?

I hope to discuss this soon with you on a new messaging app. More soon friends, good night and good luck.
